

find your size

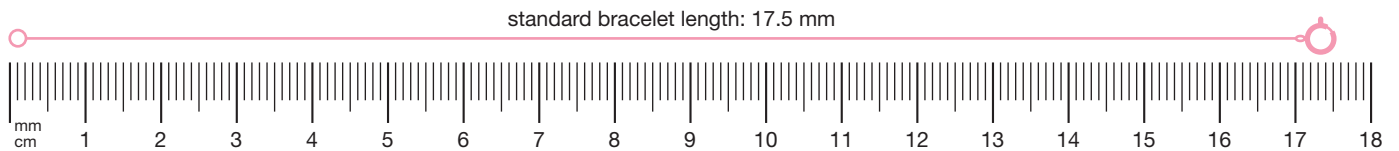

ring

1. Wrap a thin strip of paper around the base of your finger. Mark the spot where the paper meets. Measure the paper's distance with a ruler.
2. Use this chart to determine ring size (print at 100%). To size a ring you already have, lay it directly onto the cart so that the circle touches the ring's inner circle.

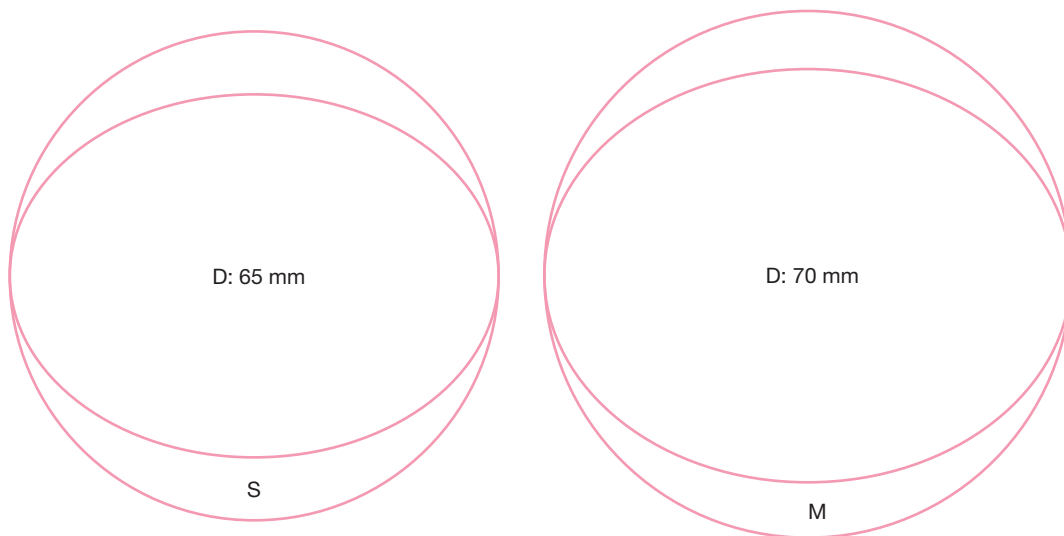

bracelet

1. Wrap a thin strip of paper tightly around where your wrist is broadest. Mark the spot where the paper meets. Measure the paper's distance with a ruler and add 1-1.5 cm to the measurement.

2. When measuring for a bracelet or bangle that will roll across the hand, measure tightly where your hand is the broadest. Next find the closest bracelet size at this chart (print at 100%).

necklace

1. Wrap a thin strip of paper or string around your neck to define the desired length and mark the spot where the paper/string meets. Measure this distance with a ruler.
2. Use this chart to view how our necklace sizes (in cm) will fall.
